Rear Drive Base
42.8 lbs.

Battery
6.0 lbs.

Remove the battery.

Raise the lever under the seat.

Pull the seat upwards.

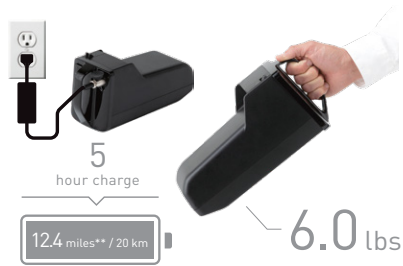

Pull the lever on the side of the battery toward you to separate the parts.

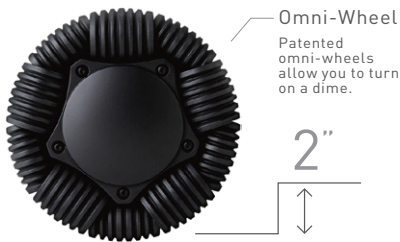

*Model C2 is not to be used as a seat while it is being transported.

The information contained herein is correct at the time of printing, and we reserve the right to alter specifications without prior notice.

Features and Functions

The battery can be removed and charged in a regular household outlet.

Effortlessly climb over obstacles up to 2" in height with two powerful motors and large front omni-wheels.

Drive remotely, lock/unlock, and manage speed settings via the WHILL

The WHILL Model C2 can make tight turns, allowing you to go places that a typical scooter can't take you.

The controller can be positioned on the left or right side.

Drive straight on a tilted path.

****Note:** Driving range of 12.4 miles will vary due to user weight, drive surface, terrain, ambient temperature, speed setting, and battery charge and condition.

Customization

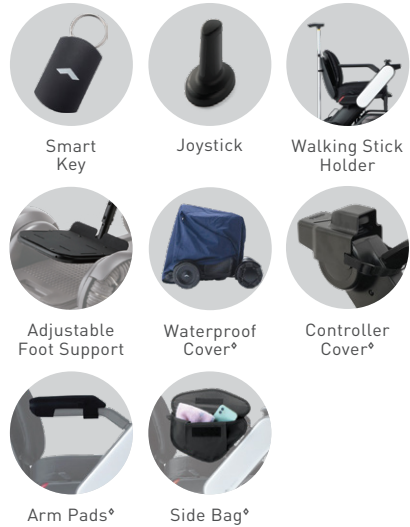

Choose from 9 different arm color options and customize the WHILL Model C2 to match your personal style.
