

WHILL Model R Series

3 & 4-Wheel Mobility Scooters

Tight Turns, Supreme Stability

The Model R allows for effortless navigation in tight spaces. With an exceptional turning radius and dual-motor system, it provides an unmatched smooth ride.

Portability with Comfort

The Model R's portability allows for quick disassembly while maintaining your comfort. It is ergonomically designed with a variety of adjustable features to meet your needs.

3-Wheel

4-Wheel

Conquer Urban Terrain:
Tackle rough and uneven surfaces with ease.

Swift Disassembly:
Storage and car loading are fast and hassle-free.

Unmatched Stability:
Independent suspension with a stabilizer, ensuring you stay balanced during every ride.

More Features

Wide LED display for clear visibility.

Spacious flat floor provides ample legroom.

Terrain coverage allows you to go over grassy slopes.

Generous 4 gallon basket for your belongings.

The Model R is **IPX5 water resistant**, protecting it from light rain and water exposure. Ride the scooter for short distances on rainy days or in other wet conditions.

Enabling Technology

Dual-Motor System: Motors can rotate in opposite directions, allowing the scooter to make precise turns on the spot.

Steering Angle Sensor: Automatically adjusts speed during turns for an optimal and safe driving experience.

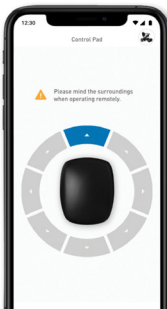

Stabilizer: The stabilizer and independent suspension provide unmatched stability, especially during tight turns.

Durable Frame: The primary frame is high-strength aluminum for a durable and lightweight design.
